EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Paragraph [0001] has been changed to:

-- [0001] This application is a divisional of Co-Pending Application Serial No. 09/345,026, filed July 2, 1999, now U.S. Patent Number 6,364,904, the contents of which is incorporated by reference herein. --

2. The following is an examiner's statement of reasons for allowance: None of the prior art of record taught or suggested that those skilled in the art at the time the invention was made would have formed a stent graft assembly by forming a substantially planar strip and wire assembly from a first and second essentially flat, planar graft strips and essentially flat planar stent wire which was positioned between the first and second graft strips followed by helically winding the substantially planar strip and wire assembly. The reference to Banas et al (newly cited), formed an encapsulated planar graft stent assembly followed by helically winding the assembly, however the graft stent assembly was formed by either pultruding the stent wire through a pultrusion process wherein the plastic graft material as added or via an extrusion operation to form the graft component with an opening therein capable of accepting the

stent component followed by threading of the stent component therein, see Figures 11 and 13 and 14, column 10, lines 36-46, column 10, lines 47-56. Note that the reference failed to suggest the use of two planar essentially flat graft strips which sandwiched the stent component and there is simply no motivation to utilize two strips in the manner claimed by applicant.

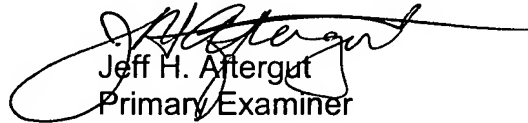

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeff H. Aftergut whose telephone number is 571-272-1212. The examiner can normally be reached on Monday-Friday 7:15-345 pm.
